

What is a Celebration Service?

A celebration service is a beautiful ceremony that is focused on your loved one's life. We take note of every detail making sure the ceremony represents the person's life. From music, pictures and flowers, we make sure the celebration leaves each person a wonderful memory of who your loved one was, what their passion was in life and how much they meant to you.

It's our passion to celebrate each individual life and share the legacy of one who has entered into eternity. It is our belief that everyone is important and has a very special calling from God. Each person deserves to be recognized and their life celebrated.

Let us help you to share your loved one's Life Story and their Legacy.
